Thank you for your amazing support for the Dubwath Silver Meadows project.

Thanks to the donations from visitors through Nurture Lakeland’s Visitor Giving Scheme, the team have been hard at work making improvements to the site for all to enjoy.

Improvements over the last year include:

- New display boards for inside shelters
- A new picnic table (from a local sawmill)
- Repairs to the boardwalk
- Working with an artist on the information board project
- A leaflet reprint

The volunteers have put in 80 hours of hard work this year:

- Willow weaving
- Sourcing a log for the new seat
- General repairs and maintenance
- Cutting back, lopping, and grass-cutting

The volunteers will also be working on two wattle and daub shelters, weaving two willow hides and general pruning and tree management.

“Visitor Giving enables us to make the site more enjoyable and accessible to people of all ages and physical abilities, and to provide them with the opportunity to learn something new about our environment.”

Rick Petecki, Friends of Dubwath Silver Meadow

Over the next year the main project will be the design and installation of the information boards - look out for them this summer!

Thank you again for your amazing support!
